SUMMARY

Full Stack Developer specializing in the MERN stack with experience building scalable, responsive web applications. Strong foundation in backend architecture, REST APIs, authentication systems, and deployment workflows. Previously built AI-powered systems, bringing strong problem-solving and system-level thinking to modern web development.

PROJECTS

[COPREPER — AI-Powered Interview Prep Platform](#)

Next.js 14, Node.js, Express, SQLite (FTS5), JWT, OpenAI/Claude

- Built a full-stack knowledge management platform for CS students to document and revise projects for interviews.
- Implemented three-tier architecture with JWT-based authentication and secure httpOnly cookies.
- Integrated SQLite FTS5 for fast full-text search and optimized data retrieval.
- Designed an Adapter Pattern for modular AI provider integration (OpenAI/Claude).
- Developed a grounded AI interview system with structured answer evaluation.
- Planned scalable migration from SQLite to PostgreSQL.

[Personal Portfolio with AI Assistant \(HIREN\)](#)

HTML, CSS, JavaScript, Node.js (Serverless), Groq API, EmailJS, Vercel

- Designed and developed a visually rich personal portfolio with a notebook-inspired UI and interactive sections (timeline, blog, certifications).
- Integrated an AI chatbot (LLaMA 3.3 via Groq) using secure Vercel serverless functions to protect API keys.
- Implemented serverless email handling via EmailJS with backend proxy for secure communication.
- Built custom production pipeline with HTML/CSS/JS minification, code obfuscation, and deployment optimization.
- Ensured responsive design and performance across devices.

TECHNICAL SKILLS

Programming & Core

- Python, C++
- Data Structures & Algorithms

Frontend

- React.js
- HTML5
- CSS3
- Tailwind / Bootstrap

Backend

- Node.js, Express.js
- REST APIs
- Authentication (JWT / OAuth if used)

Tools/Database

- Git/GitHub
- Postman
- VS Code
- Deployment (Vercel, Render, Netlify, Railway, etc.)
- MongoDB

EXPERIENCE

Software Engineer Intern - ColoredCow

Nov 2025 - Present

- Contributed to backend development and frontend bug fixes in a production codebase.
- Designed secure data flows and assisted in system integration tasks.
- Collaborated with senior engineers to debug and improve application stability.

Machine Learning Intern - Tamizan Skills

June 2025 - July 2025

- Completed a structured internship program focused on Machine Learning and AI fundamentals.
- Implemented end-to-end ML workflows including data preprocessing, model training, and evaluation using Python.
- Gained hands-on experience with common ML libraries and practical problem-solving tasks.

EDUCATION

Bachelor of Technology in Computer Science Bipin Tripathi Kumaon Institute of Technology, Dwarahat	2023-2027
Intermediate(12th) - 84% BML Munjal Green Meadows School, Haridwar	2022-2023
High School(10th) - 94% BML Munjal Green Meadows School, Haridwar	2020-2021

ADDITIONAL INFORMATION

- Innovation Cell Lead at Bipin Tripathi Kumaon Institute of Technology.
- Organized Smart India Hackathon (SIH) 2025 at the college level.
- Coordinated the annual college coding fest and technical events.
